‡ Excluding 1st year.

Part B. Survey, July 4, 1923 (G.O. No. 345, Z. & M.)

No. 611.—In continuation of Notification No. 547 published on page 278 of Part I-A of the Part B. Survey Gazette, dated 15th June 1923, the Government direct that the land may be taken possession of in the acquisition of the land from the possession of the owner under notification (1) of section 2 of the Land Acquisition Act, 1924.

Part B. Survey, July 6, 1923 (G.O. No. 348, Z. & M.)

No. 612.—Paragraph 15 of the Provisions Fund Rules lays down that when with the consent of a local body, a subscriber takes service under another local body which

also maintains a Provident Fund, the amount to his credit in the Provident Fund of the former body shall be transferred to the Provident Fund of the latter. This rule is not strictly applicable in cases of temporary transfer of service and applications have been from time to time received from local bodies for permission to pay bonus on behalf of persons transferred to their service temporarily, the subscribers continuing to contribute directly to the Provident Fund of the body under which they hold permanent appointments. To provide for such cases the Government consider that the following addition should be made at the end of Rule 15:—

"In cases however where the transfer of service is temporary the amount to the subscriber's credit need not be so transferred but the latter body shall contribute to the former body a bonus equivalent to the subscription paid by the subscriber to the Provident Fund of the former body during such temporary service."

Port St. George, July 7, 1922 (G.O. No. 1148, P. 27).

PLAGUE REGULATIONS IN FORCE OUTSIDE TWO PRESENTATION TOWNS.

No. 413.—Whereas certain parts of the Presidency of Madras are visited by, and other parts are threatened with, an outbreak of the dangerous epidemic disease known as plague, and whereas the ordinary provisions of the law for the time being in force in the Presidency are insufficient for the purpose of preventing the outbreak or spread of the disease:

Enacted by the powers conferred by section 2-A of the Epidemic Diseases Act, 1897, as amended by the Amendment Act, XXXVIII of 1930, the Local Government are pleased to prescribe, in supersession of all regulations previously issued on the subject, the following temporary regulations to be observed throughout the Presidency except the City of Madras for a period of one year from the 15th of July 1933:—

1. In these regulations

(a) "Infected area" means any area which is notified under these regulations by the Local Government or, subject to their control by the Collector of a district, to be infected with plague;

(b) "A local authority" means the local medical officer or, if there is no such officer, the village headman, the District Health Inspector or any other person appointed as a local authority for the purposes of plague by the Collector of the district;

(c) "Plague Officer" means the District Health Officer or the District Medical and Sanitary Officer when there is no District Health Officer and the Executive Medical Officer within his jurisdiction and includes any other person who may be appointed by the Government or by the Collector or plague officer over any definite area.

2. The Local Government may, by notification in the Port St. George Gazette, declare any place or area in which one or more indigenous cases of plague have occurred, or in which the existence of plague among rats has been proved, to be infected with plague. In similar circumstances the Collector of the district may notify by notification in the Port St. George Gazette that any place or area in his district is infected with plague, informing the Government accordingly of the facts that he has done so.

3. In an infected area or in a district adjoining an infected area the Collector may close any existing markets and may appoint special places where markets may be held and may prescribe limits beyond which it shall not be lawful for persons bringing articles for sale from or to an infected area to pass.

4. In an infected area the Collector, or a plague officer with the previous sanction of the Collector, may order the evacuation of infected houses and houses in their neighbourhood, or generally of any infected locality.

Provided that, before issuing or authorising an order for compulsory evacuation, the Collector shall either provide adequate and suitable shelter within reasonable distance for the persons evicted, together with the necessary water-supply and arrangements for watch and ward, or shall satisfy himself that such shelter and water-supply have been provided by private agency. The Collector shall also satisfy himself that the compulsory evacuation is necessary to avert the further spread of the disease, or is in the interests of the affected population taking account of climatic conditions.

The Collector may require all persons who evacuate their houses voluntarily, or are evicted under these regulations, to reside in such place as he may appoint.

Nothing contained in this rule shall be deemed to apply to persons who have been successfully inoculated against plague during the nine months prior to the declaration of a locality being infected or who get themselves inoculated within 24 hours of such declaration.

5. In an infected area the Collector may order upon, occupy and use, or may deposit any person to enter upon, occupy and use, without having recourse to the provisions of the Land Acquisition Act, 1894, any building or place which is required for, and is, in the opinion of the District Health Officer or the District Medical and Sanitary Officer where there is no District Health Officer, suitable for any purposes connected with plague measures; provided that, if the building or place is occupied, twenty-four hours' notice in writing shall be given to the occupier or shall be conspicuously affixed on such building or place. The owner or lessee of such building or place shall be entitled to a reasonable rent, to be fixed by the Collector, for the period during which the ground or building may be used for purposes connected with plague;

and the Collector shall, when any building seems to be so used, cause it to be thoroughly disinfected and, if the owner so desires, whitewashed internally and externally.

5. If the Collector is of opinion that the destruction of any hut or shed is necessary to prevent the spread of plague, he may take summary measures for the destruction of such hut or shed and of the materials of which it is constructed.

7. The Collector may direct that any dwelling house or any landing place or railway goods shed or any place used for the storage of grain shall be inspected and that all rats found therein shall be destroyed; and to facilitate the destruction of rats may order the temporary removal of any grain or other merchandise.

8. The Collector may direct that at any place in his district any consignment of grain, being conveyed by rail, road or otherwise, shall be examined, and shall, if necessary, be unloaded and exposed to the sun in such manner and for such period as he may see fit.

9. Every householder and every medical practitioner shall at once report to the nearest local authority any case of plague or any case of fever with glandular swellings or any infectious mortality among rats which may come to his notice.

10. The chairman of any municipal council or urban sanitary, or the headman of any village in which there is no sanitary, may prevent any person suspected of coming from an infected place from entering the town or village for a period not exceeding two days unless his clothing and personal effects have been thoroughly exposed to the direct rays of the sun for not less than six hours. He may also prevent any consignment of grain from entering the town or village until the bags have been covered from the carts and every side of each bag has been exposed to the direct rays of the sun for not less than two hours.

11. (1) In the absence of a written contract to the contrary, every carpenter, mason, painter, workman, coolie, messenger or other manual servant employed to do duty in connection with plague, shall be entitled to one month's notice before discharge, or one month's wages in lieu thereof, unless he is discharged for misconduct or is engaged for a specified term and is discharged at the end of it.
